

Immigration to Israel between 1948 - 2017

What you see below are the immigration numbers between 1948 and 2017 provided by the 'Israeli' government itself. See link below. The column "Estimated residents" calculates the number of people from each country based on their percentage of total arrivals and calculated using that percentage to total population today.

The list is in descending order from the largest percentage of arrival to the smallest.
